

BLAIR ROAD

SHARED USE PATH

Replace sidewalk with 8-9' path from Sheridan to Oglethorpe, and fill in missing sidewalk sections.

INTERSECTION

BLAIR RD, KANSAS AVE & PEABODY

Improve crossing by:

- realigning and adding high visibility crosswalks
- relocating three light and signal poles and widening the path across the traffic island to 10 feet
- widening curb ramps to 8 feet
- installing signs warning motorists of trail crossing
- fix incorrectly installed pedestrian signal head

Consider:

- narrowing the crossing of Peabody by extending one or both curbs into the street and reducing the street to one lane.

INTERSECTIONS

N. DAKOTA & PEABODY;
BLAIR RD & PEABODY

Improve two crossing locations to accommodate bicycle transition movements between shared use street facilities on North Dakota to shared use path on east side

of Blair Road. Implement the following improvements:

- add high visibility crosswalks
- add new curb ramps where necessary
- relocate light and signal poles where necessary
- installing signs warning motorists of trail crossing

Also consider the following improvements:

- narrowing Peabody by extending one or both curbs into the street and reducing the street to one lane.
- using a left turn bicycle lane on North Dakota for southbound bicyclists

Scale: 1" = 100'
